

YOU SHOULD LEARN ABOUT

StockNotes

STOCK NOTES PROJECT

This project will examine how social media behavior affects stock market prices. We will strive to understand how social media influences people's behavior and the correlation that has with stock market performances.

WHY WE ARE IMPORTANT

This project can help investors make better decisions on what they should invest in on the market. In this project we gathered data from Twitter using the Tweepy API.

NASDAQ STOCKS

- PEPSICO
- TESLA
- AMAZON
- COSTCO
- APPLE
